VEGETATIO

the international journal of plant ecology

Contents Volume 120

Vegetation changes along gradients of long-term soil development in the Hawaiian montane rainforest zone
K. Kitayama & D. Mueller-Dombois 1–20

Factors influencing sapling composition in canopy gaps of a temperate deciduous forest
S. Abe, T. Masaki & T. Nakashizuka 21–31

Forest floor mass, litterfall and nutrient return in Central Himalayan high altitude forests
S.C. Garkoti & S.P. Singh 33–48

Relationships between plant communities and late snow melting on Mount Prado (Northern Apennines, Italy)
C. Ferrari & G. Rossi 49–58

Comparison of the regeneration after burning, cutting and ploughing in a *Cistus ladanifer* shrubland
R. Tárrega, E. Luis-Calabuig & I. Alonso 59–67

Analysis of woody vegetation of Corbett National Park, India
A. Singh, V.S. Reddy & J.S. Singh 69–79

A quantitative phytogeographic analysis of species richness in forest communities of the Paraná River Delta, Argentina
F.D. Menalled & J.M. Adamoli 81–90

Tree species composition and rain forest-environment relationships in the middle Caquetá area, Colombia, NW Amazonia
J.F. Duivenvoorden 91–113

Ecological optima and tolerances of *Thelypteris limbosperma, Athyrium distentifolium*, and *Matteuccia struthiopteris* along environmental gradients in Western Norway
A. Odland, H.J.B. Birks & J.M. Line 115–130

An assessment of some improved techniques for estimating the abundance (frequency) of sedentary organisms
D.A. Morrison, A.F. Le Brocque & P.J. Clarke 131–145

Relationships of bryophytes and lichens to environmental gradients in Maine peatlands
D.S. Anderson, R.B. Davis & J.A. Janssens 147–159

Short-term accumulation of organic matter and nutrient contents in two dry sand ecosystems
J.W. van Rheenen, M.J.A. Werger, R. Bobbink, F.J.A. Daniels & W.H.M. Mulders 161–171

Dendrochronological analysis of the canopy history of two Ohio old-growth forests
Do-Soon Cho & R.E.J. Boerner 173–183

Instructions to Authors 185–188

Contents Volume 120 / List of Contributors 189–190
